

LET'S MAKE SCHOOL BETTER. TOGETHER

be a youth learning expert.

THE GIST

Young people like you are the reason we do our work. Our mission is to **reDesign** "school" to focus on meaningful, inspiring, and joyful learning for ALL students. But if we want to get this right... we need your voice and your ideas!

THE INVITATION

High School Students: Serve as youth advisors to reDesign by participating in our **Youth Advisory Council**. You'll share your ideas, insights, and feedback on the school materials we design, and engage in solutions-oriented brainstorming with us about how to improve school.

THE WORK

Throughout the year, we'll ask you to engage with your fellow students and share your insights in different ways. All the work you'll do will be virtual (for now) and might involve:

- attending monthly meetings
- collaborating with other students
- meeting/working with reDesign staff
- testing our designs and sharing feedback
- **designing a project focused on making YOUR school community better!**

We **DO** care about:

- **Your collaboration and communication style.** We want people who can listen respectfully to others, share their ideas in a thoughtful way, and take responsibility for being a good team-member.
- **Your ideas for making 'school' and learning better.** We especially want to hear your thoughts on how to make learning joyful, meaningful, and equitable for ALL students.
- **Your ability to engage in constructive discussion.** Pointing out what's "wrong" with school is easy. We want people who will explore new possibilities and discuss potential solutions.
